MEET YOUR OFFICERS

AMELIA ELLISON

4th Year - VP of Community Service

Amelia has been a big part of the SCE community for the past three years, on the events committee and as publicity director. She's studying civil engineering because of the interplay between math and sustainability. Her favorite SCE events are the elementary school visits. Last summer she worked with Whiting-Turner Construction and recently got into pickleball. Say hi!

VANDAD ASLI

4th Year - Corresponding Officer

Vandad was last year's mentorship chair and is now our correspondence officer. His fascination with skyscrapers is what got him hooked on civil engineering and structures in particular. His current job includes organizing all of our general meetings. Vandad is also a member of the Iranian Student Cultural Org. Ask him about his internship with Kimley-Horns Solar Department. His favorite holiday, coming up really soon, is Thanksgiving!
