Kelly Chew

EXEC. VP

Kelly is a third year who has been a member of SCE since PSWS her first year. This year she is putting together the annual CE/ENVE career fair in January! She knew she wanted to work with science and math and saw CE as a way to do that while also helping to solve problems around us. She is also a member of CSA. Ask her about her land development internship, her summer travels, or about her favorite movie!
