FRIENDSGIVING!
WEEK 10

JOHN YANG

SOCIAL DIRECTOR - 4TH YEAR

John has been a member of SCE since his freshman year. Last year he headed our alumni/faculty relations and the year before helped as a conference coordinator. He loves that SCE allows him to meet students from other schools. He enjoys how we are surrounded by civil engineering and can see it everywhere. He's looking forward to making more memories this year. Say hi when you see him and thank him for the food at the general meetings!

LIBERTY BOSTON

MENTORSHIP CHAIR - 2ND YEAR

Liberty was excited to major in civil engineering because it is a way to merge math and art. She is also a part of SWE, Surf Club, and the Cal Poly Cat Program. If she had a superpower it would be increased speed, not only to get places quicker and run up walls, but to learn and finish homework faster. She joined SCE her freshman year and is now a member of the board! Ask her about her internship for the upcoming summer!
